CLASSIFICATION OF TEXTURE YARNS (Gliederung
der Texturgarne). [1961] [31]p. 22 refs.
Order from SLA \$3.60

61-16734

Trans. of Deutsche Textiltechnik (East Germany) 1960,
v. 10 [no. 7] p. 373-379.

DESCRIPTORS: *Synthetic fibers, *Threads,
Classification.

The object of this work is the development of a systematic arrangement of the terminology of texture yarns. The form of the fiber used for the production of texture yarns is the starting point of this classification. Based on this, the individual groups of texture yarns and the respective varieties of texture yarns assigned to them are developed. Furthermore, the employed production technology and the characteristic properties of the individual texture yarns are considered as characterizing criteria. (Author)

ELECTRON MICROSCOPE INVESTIGATIONS OF EXPANSION PHENOMENA WITH THE AID OF AN EXPANSION CARTRIDGE. [1960] 8p. (6 illus. omitted) 2 refs.

Order from SLA mi\$1.80, ph\$1.80

61-10666

Trans. of Zeitschrift für Wiss[enschaftliche] Mikrosk[opie und Mikroskopische Technik (West Germany) 1955] v. 62, no. 3, p. 147-151.

A newly developed expansion stretching device based on operating conditions of electron microscopes permits the observation of stretching in the course of electron microscope investigations. Construction and operating procedure of this apparatus are described and possibilities for its application are discussed in relation to the high preparative demands and to the effects of electron radiation.
